SAN FRANCISCO.
Tuesday, January 1, 1850.

NEWS BY THE CALIFORNIA.

ONE MONTH LATER

FROM THE STATES.

Probable Settlement of the Russio-Turkish Question.——Progress of the American Movement in Canada.—Project of a Railroad and Telegraph to the Pacific.

The Steamer California, Capt. Budd, arrived at this port, from Panama, on Saturday last, at about 1 o'clock, A. M., having made the passage in 23 days. She brings, as we understand, nearly 300 passengers, (20 of whom are females) and about 15,000 letters.

We acknowledge, gratefully, the receipt of many papers of a late date, which were placed upon our table, at an early hour on Saturday morning, by Mr. Geo. Warren Hatstat, the enterprising messenger for Adams & Co.'s Express. We, also, acknowledge the receipt, from Messrs. Cambell & Hoog, of late files from the United States.

We offer to our readers, below, a general summary of news, which we gather from our exchanges. We hope to be able to present, in our next, more full particulars.

From the N. Y. Tribune.

At this issue, public attention is forcibly attracted by the unusual amount of intelligence which has reached us at once from almost every part of the world. The most inspiring news of all is that of the establishment of freedom in California, by the unanimous voice of the thousands of her people. This result has long been looked for at the North, and the consummation elicits a universal expression of delight. Other portions of the union, however, will probably not be so well pleased. The recent aggressions of the French, at the Sandwich Islands, have awakened here a very general expression of abhorrence and indignation. The French Government has shown a disposition to play much the same game with this government, on questions ostensibly growing out of the late Poussin difficulty; but little is thought of the matter, and the event calls forth no degree of apprehension. The ex-French Minister Poussin sailed for Havre on Saturday last. The French artisans of this city sent him a farewell letter, expressive of regret at his departure, and he was waited on to the boat by a large company of his personal friends.

The new Envoy from France to this country is still in uncertainty. A rumor prevails that M. Poussin will be succeeded by M. Montholon and not by M. Sain Bois le Compte. Our diplomatic relations otherwise are apparently in a quiet and well conditioned state.

Affairs in Canada continue to preserve their customary degree of interest. The annexationists, in the chief cities of the province, appear to be rapidly gaining ground. Their manifesto, in favor of severing the British connexion, has been, till lately, the engrossing topic of interest, not only in the Canadas but in the United States; and although the movement naturally calls forth great differences of opinion, and occasionally a bitter expression, its entire discussion has, thus far, been conducted with a remarkable degree of quietness. In the promotion of the views of the annexationist party a number of influential journals, in different sections of the country, have become its ostensible organs. In Montreal there are several; in Toronto a new and able semi-weekly has appeared, and in the townships there are many open advocates of the measure among the members of the prominent provincial press, as well as among the population.

Since our last issue the seat of government has been removed from Montreal to Toronto, and much dissatisfaction has been the consequence, particularly among the office holders and the landlords. The Receiver General, M. Viger, resigned his office in consequence of the act, and other officials are placed in situations of great embarrassment. The house owners are especially vexed at the prospect of so many fine mansions being left deserted on their hands—the merchants, some of whom are M. P.'s, doing business in Montreal, experience the troubles arising from the separation of residence and their business pursuits—and the withdrawal of the expenditures in town by the regiment of soldiers formerly stationed at Montreal, will be another blow at the prospects of the tradesmen. It is said that, in consequence, the military and government officers remaining in the ex-capitol are using all possible endeavors to check the annexation movement and cutting connection with those who have signed the manifesto. No demonstrations of violence, however, have, as yet, been made on either part.

More important intelligence respecting the movements of the annexationists has just reached us, viz: the formation of 'The Annexation Association of Montreal,' which adopts the sentiments of the Annexation Address; sets forth that the state of colonial dependance can only be prolonged at the sacrifice of valuable interests; and the members of which bind themselves together, 'burying in oblivion all past dissensions,' to co-operate, in all lawful and constitutional means, to promote the objects they seek. The British American League is in session at Toronto, and has adopted a series of resolutions expressive of the ideas that a constitution, framed in unison with the wishes of the people and suited to the growing importance and intelligence of the country, is essential to the welfare of the colony and its future good government; and claiming, as a right, the entire control of the internal concerns and the industrial and commercial affairs of the Province These schemes smack strongly of annexation; and the entire movements, both of leaguers and annexationists, are pointing more and more definitively to the approach of important events.

The President and his Cabinet are busily engaged in the arrangement of the message, reports and documents, for the rapidly approaching session of congress. It is intimated that the report of the Secretary of the Treasury will suggest a number of important modifications of the existing tariff, whereby it shall be rendered more applicable to the agricultural and commercial interests of the union.

The project of a Railroad to the Pacific has called together a great Convention of Delegates from different States of the Union, which was held at St. Louis about the middle of October. The session was protracted, though interesting and important. Col. Benton presented the national importance of the contemplated work, in one of his peculiarly elaborate speeches, and was well received by the Convention. A series of resolutions was finally adopted, recommending to Congress the wisdom of providing for the construction of a Trunk Road to the Pacific, in California, and extending a branch to Oregon from some eligible point on the Mississippi river.

Another Convention, with somewhat similar objects in view, has just concluded its sessions in Memphis, Tenn.—whereof Lieut. Maury, the celebrated and accomplished Superintendent of the National Observatory at Washington, was elected President. Delegates in this body represented ten or twelve of the Southern States, four or five of the Northern, and several of the Western, and the debates, though only of four days' continuance, possessed no small degree of interest. The conclusions of this Convention, as summed up in their concluding resolutions, were briefly these.

1st. That it is the duty of the General Government to provide, at an early period, for the construction of a National Railroad from the Mississippi to the Pacific ocean.

2d. That the proper Engineers, Surveys, location of the line of the road, &c., should be appointed and completed by the General Government.

3d. That for the construction of the road the public lands constitute a legitimate and proper fund; and that it is furthermore the duty of Congress, after the accomplishment of this great work, to aid, by an appropriation of the National domain, in the construction of branch railroads to connect the Northern Lakes and the great thoroughfares leading to the Atlantic—and also to aid in the construction of branches from the main trunk to suitable points on the Gulf of Mexico, either east or west of the Mississippi. And,

4th That while the contemplated railroad across the continent is in progress, a present communication between the American and Asiatic coast is of vast importance, and might readily be attained by ship canal, or railroad, across the Isthmus of Tehuantepec, Nicaragua or Panama.

These various projects are to be earnestly urged upon the attention of Congress, and its aid invoked in the encouragement of private enterprises that may promote the objects here aimed at.

With new lines of steam and rail communication, the constantly increasing manufacturing interest of the Union (the South having recently entered extensively into the cotton factories,) and with the almost inexhaustible resources at command, both in the nation and by individual States, which will instantly be brought to bear upon the industrial pursuits of the Union we may safely predict a speedy and quite unprecedented increase in the business facilities and pursuits of the States. Already there is an uncommon briskness in mercantile circles, money easy, and the store continually augmented by the large consignments which have been received from California. Our public companies are doing an excellent business, and the fall trade is exceedingly lively.

Proposals for extending the Telegraph line to San Francisco have been made by Henry O'Rielly, the indefatigable light ning agent. In a letter to Col. Chambers, Chairman of the Committee of Arrangements for the St. Louis Railroad Convention, Mr. O'Rielly earnestly urges the necessity for the immediate completion of the Western division of the Telegraph from the Mississippi to San Francisco, five hundred miles of which are already under contract from St. Louis to Fort Leavenworth. He contemplates a daily Express mail across the Rocky Mountains; and shows that by the aid of a very moderate grant from Congress, and a little other help from Government, the plan is perfectly feasible. It is abundantly shown that this project of Mr. O'Rielly's to facilitate intercourse and to aid in the civilization of the western wilderness, would not exceed in expensiveness the extra cost of a regiment of cavalry. The Telegraph would be a useful pioneer to any railroad plan that might be adopted; and it is supposed that the whole matter will be soon brought before the Executive and Legislative authorities at Washington.

By the Ohio, which arrived here on Saturday last, we have recent intelligences from Havana, though nothing of any moment. Havana is rapidly filling up with Americans to pass the winter. The leader of the defunct Round Island expedition, Col. White, came passenger on board the Ohio. When it was ascertained by the Havanese authorities, that such was the case, orders were immediately given to the Captain of the port to guard the ship, and not allow Col. W. to go ashore. The order was promptly executed, and the Chief of Police, in citizen's dress, was sent on board, and remained until the steamer left. No unusual restriction was laid upon the other passengers. The majority of the native population of the Island are said to be in favor of becoming a part of the United States, but not through any unfair means.

From the N. Y. Herald.

We devote a considerable portion of our columns, to-day, to the very interesting and important European intelligence, which has been conveyed to this country by the steamship Cambria—the mails and our correspondence by that vessel having arrived in this city yesterday. The intelligence is varied as well as interesting, and embraces details that will be read with great anxiety by all classes of the community.

It appears that the Russio-Turkish question, which created so great a commotion throughout the whole continent of Europe, has been settled and disposed of—as we said it would be—without involving the nations in a war. The Emperor of Russia has receded from the position which he assumed in regard to the extradition of the Hungarian refugees by saying that he would not insist upon his demand for their surrender. He has withdrawn from the difficult position in which he placed himself, on account of the stand which England and France took in the matter; and now is reported to have said, that so far from wishing to force the subject to extremities, he is willing to settle the differences which had sprung up, provided no warlike interference was threatened on the part of England or France.

This, we have no doubt, will be the end of this agitated question, and we shall not, in all probability, hear much more about it. There will be some correspondence and diplomacy between the respective nations, but no hostility, as we have before stated.

From Spain, we learn that the Narvaez ministry was dissolved suddenly, after 11 o'clock at night—when the Queen returned from the Opera—and another appointed, which, however, lasted only two days. Narvaez was again called in to form another, and the rumor was that he was the second time dismissed, The relations between the royal family and the cabinet were anything but friendly, and it was surmised that further difficulties may be expected,—if not a hostile rupture.

From France there is nothing very important or exciting. The proposition in the Legislative Assembly to repeal the law banishing the Bourbon and Orleans families, was, after full debate, rejected by a very large majority. The Austrian butcheries have been stopped, no doubt, in consequence of the storm of indignation which they aroused throughout the civilised world, but arrests are still the order of the day. In consequence of the stoppage of the work of slaughter, it is said that Haynau, the butcher-in-chief, has resigned his post, and retired, in disgust to his private estate.

In consequence of the assurance of the continuance of peace, which pervaded among all classes, commercial affairs were brightening at the last accounts, and the prospect of increased activity throughout England and the Continent was very fair. Some additional disclosures of fraud and corruption in the management of railroads, have recently been made in that country, that have startled the community, and no doubt brought ruin and distress on a great many families. It appears that Hudson, the celebrated railroad swindler, has been detected in falsifying the accounts of another railway company, to the amount of half a million of dollars, which sum he applied to his own purposes. Defalcations and mismanagement connected with insurance companies, and similar institutions, have also come to light, which have created great excitement and consternation throughout the whole of England. These swindling operations have received the name of "cooking," in England, because, we suppose, so many people are "cooked and done for" by them.

☞ Owing to a press of matter in consequence of the arrival of the steamer, the "Local Matter" is unavoidably omitted

The State Elections.

We learn from our papers, received by the California, that in Massachusetts, Gov. Briggs, Whig, has been re-elected, and that Mr. J. G. Palfrey, Free Soil candidate for Congress, has been defeated by a large majority.

In New York, the Senate is Whig, while the Assembly is probably Democratic.

In Maine, the Democrats have elected their Governor, and hold a majority both in the House and the Senate.

The Democrats in Michigan, have also elected their candidate for the gubernatorial chair, and a majority in both branches of the legislature.

New Jersey has gone Whig.

In Louisiana, General Walker, the Democratic candidate for Governor, has been elected.

The Mails.

We are happy to state, for the information of our readers in the Atlantic States, some of whom probably receive this sheet, that the mails by the California, bringing dates from New Orleans and New York as late as the 13th of November, were received in time to be answered by the steamer of to-day.

This promptness is owing, we learn from the passengers of the California, to the energy and determination of Capt. Budd, who resolved that he *would have* the mail from the Panama post office, before he left that place. And in this resolution he was cordially seconded by Mr. Lane, the agent specially appointed to superintend the transmission of the mails from New York to Panama.

It is a remarkable fact, that while the delay in the transmission of the Atlantic mails to this place has been the subject of general complaint, the mails from here to New York have, for several months past, gone regularly through. This fact is doubtless attributable to the precaution of Col. Allen, the efficient special mail agent for California, who has regularly dispatched a mail agent with the mail. We trust that the Postmaster General will soon appoint *through* mail agents to see to the conveyance of the mail regularly to its destination in both directions.

Latest from the Legislature.

We have received just as this paper goes to press, a full report of the proceedings of the Legislature up to Monday, 24th inst. The report, however, gives no facts of general interest in addition to those noticed in our previous articles, with the exception of the following joint resolution, which was adopted by the Senate on the 21st inst.

Resolved, If the Assembly concur, that our Senators in Congress be and they are hereby instructed and our Representatives are requested to urge upon Congress the passage of a law to have the fund, collected upon imports by order of the military authorities in California, paid into the Treasury of this State for the purpose of defraying the expenses of the State government; and also such other monies as may have been collected from the people of California up to the admission of the State into the Union by Congress

Compliment to Ex-Governor Riley.

We have received for publication, and are happy to lay before our readers, the following correspondence between the Hon. T. Butler King and Ex-Governor Riley.

It will be remembered that, in accordance with a resolution passed by the Constitutional Convention, a committee was appointed to present, 'in the name and on behalf of the people of California,' a gold snuff box to Ex-Governor Riley, as a testimonial of respect for his character and of gratitude for the services which he had rendered to our State. The gentlemen having the matter in charge requested Mr. King to present the testimonial to Gov. Riley, in a public manner, in the chamber of the House of Assembly, at San Jose. On learning the fact that it was the intention of the committee to carry out the Resolution of the Convention in this public way, the Governor, with characteristic modesty, requested that the presentation should be made privately.

Mr. King, therefore, fulfilled his trust, by presenting to Ex-Governor Riley the 'Tribute,' accompanied by the following appropriate letter:

San Jose, 21st Dec., 1849.

Sir—I have the honor to hand you, herewith, a snuff box, of California gold and workmanship, presented to you by the members of the Convention which framed the Constitution of this State, in the name and on behalf of the people of California, on your retiring from the office of Governor, in consideration of your valuable public services and private worth. You will thus perceive, General, that peace has its triumphs as well as war, and that your countrymen are not less grateful for your efforts in the cabinet than they have hitherto been proud of your services in the field. Accept, then, this evidence of their esteem and regard, and may your reputation be as imperishable as the material of which it is made.

I am, with great respect and esteem,
Your most ob't serv't,
T. BUTLER KING.

To Brev't Brig. Gen. B. Riley.

To this letter Ex-Governor Riley replied as follows:

San Jose, Cal., Dec. 21, 1849.

Sir: I have the honor to acknowledge the receipt of your note of this morning, with a beautiful "snuff box, of California gold and workmanship, presented in the name and on behalf of the people of California."

I cannot find language to express my gratitude to the people of California for this and numerous other evidences of their regard. I can only say that, although our official connexion is now dissolved, I hope our new social relation will make still stronger the ties of our friendship; no exertion shall be wanting on my part to produce that result, or which may tend to promote the prosperity and happiness of the people of this State.

Receive, Sir, my thanks for the very kind and polite manner in which you have conveyed to me this beautiful gift, and the wishes of those in whose name it is presented.

I am, sir, with great respect,
Your ob't servant,
B. RILEY,
Bv't Brig. Genl. U. S. A.
and ex-Governor of California.

Hon. T. Butler King, San Jose, Cal.

The snuff box in question was manufactured by Messrs. Woodruff & Co., of this city, out of California gold, and is a most exquisite specimen of workmanship. A full description of it has already appeared in our columns.

Later from Stockton and the Mines.

Through the attention of Messrs. Todd & Bryan's Express, we are enabled to lay before our readers the latest advices from our correspondent at Stockton.

Stockton, December 27, 1849.

Editor Pacific News: Nothing of particular interest has occurred in town, since my last. The ruins of the late fire continue to lay about as they fell—no movement as yet having been made towards restoring the *burnt district* to its former state, or business appearance, if we except the case of the St. Charles Hotel. The proprietors of that establishment are driving ahead in restoring its former accommodations and conveniences, and will soon be ready to serve their old patrons, and new ones too, as Chapman & Cornwall were wont before the fire. In other parts of the town, there are several new buildings under way, and some rapidly advancing towards completion. On the whole, Stockton is getting to be one of the *places* in California. Already it is favored with all the various mechanical branches of business—and much more with its professional gentlemen—its local courts—and considerable of mercantile prosperity in the business season. A great mercantile business will be done in this place during the next season, probably treble what was done the last season. A considerable quantity of merchandise is vended here, at present, to persons who have the indomitable perseverance to force whale and yawl boats up the San Joaquin and its tribntaries, to the mines. But on the whole, business is rather at a stand still, on account of the mud and rain, closing thereby land communication with the mines. During the late heavy storms considerable damage was sustained from the high winds, such as the blowing down of buildings, carrying away of tents, &c., &c. The Prefect of this district, Mr. Dickinson, sustained some heavy losses in consequence.

Beside the accommodation afforded by the steamers Captain Sutter and Mint for doing business between this place and San Francisco, another still more important than the two first named, is offered through *Todd & Bryan's Express*, which is now thoroughly and permanently established between the two places. The two young gentlemen are well deserving of success, so assiduous are they in serving the public, and so thoroughly prompt and efficient in whatever business is entrusted to their charge and care. Business men and others should encourage this enterprize, for no one can fail to see the importance of sustaining it, in a country like this, where railroad and telegraph communication is not at hand, and the intercourse between the two places so expensive.

The news from the mines, of which I have dates of but a few hours past, is quite encouraging. Miners, generally, are doing tolerably well. Some new *gulches* have been opened which promise to be as rich as Sullivan's was; and his

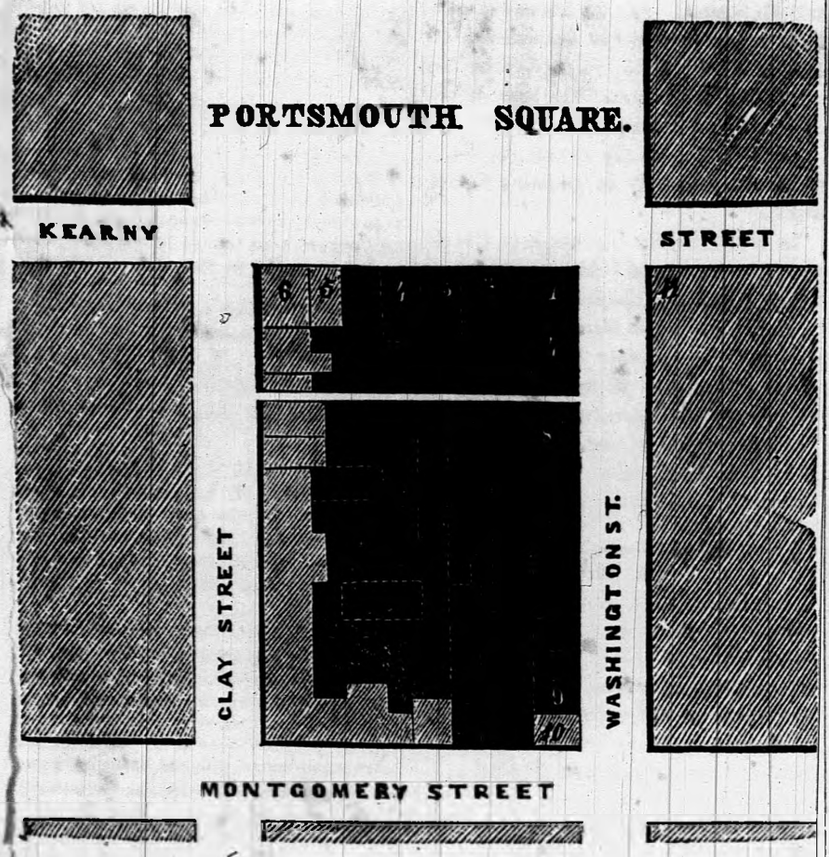

DIAGRAM OF THE BURNT DISTRICT.

In this number of our paper, we have introduced a wood cut, representing the Burnt District, and vicinity. We do this in order to give our readers, on the other side of the mountains, a clearer idea of that section of our town which was destroyed by fire, on Monday morning, 24th instant. The figures in the Diagram indicate the following buildings:

1 El Dorado.
2 Parker House.
3 Dennison's Exchange.
4 United States Restaurant.
5 Florence Dining Saloon.
6 Delmonico's. 7 Our House.
8 Central House.
9 Baltimore Restaurant.
10 Burgoyne's Building.
11 The Verandah, (Miners' Bank.)

probably is as rich as any that have been previously discovered. There has been a report quite prevalent here for several days past, and generally believed, that a gulch recently opened by three men, 20 miles eastward of the Sonoranian camp, yielded, in three days work, *twenty-seven pounds of gold!* Another report is that a gulch opened on the Stanislaus river, was yielding, to the lucky miners, eight, ten and twelve ounces per day! These reports have no substantiated authority, but I learned, in a conversation with a gentleman just down from Woods's Diggings, that he, in part, accredited the latter report from information given him by a friend, in whom he places the greatest confidence.

The health of the miners is very good; and, as near as I can learn, the miners are wearing away the winter very comfortably and profitably, notwithstanding the high price of everything requisite to sustain life. Many of them have built log cabins and are enjoying their dishes of venison, grizzly bear and other game; and all, who have come from the mines recently, give their preference to a residence in the mountains during the winter, to a locality in this place or San Francisco. The large streams and creeks have been temporarily abandoned by the miners in quest of dry diggings, and it will be not at all surprising, if before Spring, the people of the country are electrified with accounts of richer diggings than even the most credulous have entertained an idea of. More anon.

VERNON, Dec. 24, 1849.

Messrs. Editors—I arrived at this place some ten days since, and, although the weather has been rather unpropitious, I have seen sufficient to feel an assurance that Vernon is destined to become one of the principal towns of Upper California. My reason for this belief is that the location is such that Nature has intended it for the great deposit for supplies for the rich mines of Yuba, Feather River and Deer Creek. It is situated at the junction of the Sacramento and Feather Rivers, and at the head of navigation, and with water sufficient, at all seasons of the year, for steamboats and sailing vessels of light draught.

There are already three steamboats making daily trips to and from this place and Sacramento, distant about 20 miles, and they are all doing a good business. Since I have been here I have seen a great number of miners, who have come in for supplies; and the amounts of gold they bring with them are only equalled by their accounts of the richness of the diggings, more particularly on Deer Creek.

From all I can learn, the success of the miners this winter will far surpass all previous accounts—and all who have physical strength and courage to go to the mines, work hard and endure the usual privations, will rapidly acquire wealth.

I have just heard from Sacramento City, and am sorry to learn that "sub-marine armour" is in great demand there since the late storm. The inhabitants of Vernon are happily exempt from the general submersion and can look *down* upon the waters, without fear of being washed away.

Another great comfort is enjoyed by the good people here, viz: a total exemption from mud; this you will allow is a comfort indeed.

Buildings are rapidly going up and quite a bustle of business pervades the streets. I must not omit to state that there is a large and commodious hotel, over which Capt. Sevige presides, and whose table is covered with all the good things of the season. You will hear from me again in a few days.

CLINTON.

[OFFICIAL.]

To the Ayuntamiento of San Francisco:

Gentlemen:—My attention has been called to a resolution purporting to have been signed by you on the 16th inst. and published in the newspapers, directing the city Attorney to institute legal proceedings against G. Q. Colton, Esq. Justice of the Peace, to restrain him from granting town lots, and "make him amenable by due process of law, for a misdemeanor and malfeasance in office"; and also to another resolution passed Dec 24th, 1849, and published in the same manner, which is in the following words:

"That the Town Council hereby declare all grants of town lots made and signed by G. Q. Colton, Justice of the Peace, void and of no effect, the same having been unauthorizedly and illegally made; and that this resolution be published in the Alta California and Pacific News for the space of thirty days."

In these proceedings of yours, gentlemen, you have exceeded your authority, and the scope of your legitimate functions, for the following reasons:

1st. The Justices of the Peace are, in no case, subject to your jurisdiction, censure or control.

2d. Because the validity of the grants referred to, is a question for the judiciary, not for you; and your declaration upon the subject, made without any hearing of the parties interested, and necessarily without due investigation, had not the weight even of a legal opinion, admitting that you are good lawyers.

3d. Because the law does not authorize you to hear complaints against the functionaries of the District, nor to condemn them without a hearing, nor to annul their official acts; much less does it justify you, either in your public capacity as an Ayuntamiento, or in your individual and private capacities to publish against them charges of official misconduct, until such charges have been duly and legally established.

The law under which you exist, if you have any legal existence, makes it the duty of the Prefect, and the Prefect alone, to cause not only the Justices of the Peace, but you also "to comply faithfully with their respective obligations, and see that they do not exceed their authority," and to hear any complaints that may be preferred against public officers, a duty which the Prefect of this District will be prompt to perform, under any and all circumstances that may require its exercise.

Against G. Q. Colton, Esq. Justice of the Peace, I have heard no complaint, not even from you, or any of you, with the exception of your printed handbills and newspaper publications; and, therefore, upon the subject of his official acts, I am not now called upon to express any opinion.

I should be lost to all sense of duty, if I were to suffer proceedings so unjust and illegal as those above referred to, to pass without observation. I have therefore the honor to inform you that the said resolutions are disapproved, and *annulled*, and this order is directed to be recorded in the archives of the Prefecture and published.

PROCLAMATION

TO THE PEOPLE OF CALIFORNIA.

A NEW executive having been elected and installed into office, in accordance with the provisions of the Constitution of the State, the undersigned hereby resigns his powers as Governor of California. In thus dissolving his official connection with the people of this country, he would tender to them his most heartfelt thanks for their many kind attentions, and for the uniform support which they have given to the measures of his administration. The principal object of all his wishes is now accomplished—the people have a government of their own choice, one which, under the favor of Divine Providence, will secure their own prosperity and happiness and the permanent welfare of the new State.

Given at san Jose, California, this 20th day of December, A. D. 1849.

REAL ESTATE.

LOTS FOR SALE *in the city of south San Francisco*, offering the greatest inducements to persons recently arrived, who are desirous of locating themselves with superior advantages. The city of south san Francisco is situated two miles south of the city of san Francisco, immediately on the bay, having every advantage for the shipping, and is supplied with wholesome water in great abundance. A stream of sufficient quantity to supply both cities and all the shipping that ever may lay in their harbors, forms the northern boundaries of this place—is quite accessible and is about being conducted into reservoirs for that purpose. The harbor is more securely protected from the winds than the harbor of san Francisco, and ships of the heaviest burthen may at all times of the tide lay within a boat's length of the land at many points, and quite close along the whole front of the city, affording the best facilities to discharge cargo. The soil is free of dust, and is of a rich clay nature. There are extensive stone quarries, and springs of pure running water are in many places. The surrounding scenery is highly picturesque, and a more pleasant place for residences, or a more convenient place for business is not to be found on the bay. The only good road from the city of san Francisco to the Pueblo of san Jose passes through south san Francisco, crossing the mouth of Mission creek and the mouth of the stream of fresh water already alluded to On this road you travel along a beautiful valley of firm grass land to the puertesuelo, a distance of less than two miles. Persons desirous of purchasing lots, which will wholly equal in value those of the City of San Francisco and provide for themselves residences on moderate and easy terms can do so by calling at the office of the undersigned in Clay st., where full particulars will be given them. HUNTER & BROTHER,

Agent for the Proprietors.

A good House with everything necessary for the accommodation of visitors is now established at south San Francisco.

CAUTION.—Whereas, one J. A. Sutter has published a notice, in which he claims title to the land on the east bank of the Sacramento river, between the Feather river and the American Fork, I hereby notify the public that I am the only legal owner of the said land, under a warranty deed from J. A. Sutter himself, dated Aug. 10, 1843; and I therefore caution all persons that no legal title can be acquired to the same, or to any portion thereof, except through me. Justice to myself requires me to add that I shall hold the said J. A. Sutter legally responsible, both for the libel on my character, and the slander of my title, which his notice contains; and that if its publication is the result of a conspiracy to defraud me of my property, I shall take care that the offenders be brought to justice as soon as a criminal court before which they can be tried, is legally organized in this territory.

Any person desiring to satisfy himself of my title to the above land, is invited to call on W. H. Tiffany, at Boston, or on the undersigned, at his office, sacramento street, san Francisco. Hiram Grimes

COUNTRY RESIDENCE for sale, near Honolulu, Oahu, S. I.—A convenient Family Dwelling House for sale, in Nuuanu Valley, a few hundred yards off the main road, commanding extensive views both seaward and inland, and about ten minutes easy ride from the port of Honolulu. It contains eight rooms, of the following dimensions; one room 22x21 feet, one room 22x19 feet, one room 18x14 feet, two rooms 18x12 feet each, one room 24x18 feet, 1 room 18x18, one room 22x8 feet; verandah 122 feet long in front, and extending nearly all round the premises; a detached cooking house, servants' house, three-stall stable, harness and coach house, fowl house, etc., all built of substantial materials, and in excellent order The grounds comprise an area of nearly 2 acres, including a garden in front, tastefully laid out, and a grapery, both of which are stocked with an excellent selection of healthy young fruit trees.

Also, on sale, a few eligible lots, on the beach, at Honolulu, suitable for erecting stores, which will be offered at public auction on the 15th January next, if not previously disposed of by private contract. For further particulars, apply to

TOWN OF BOSTON.—Lots at the town of Boston, beautifully situated at the junction of the American Fork and Sacramento rivers, are now offered for sale. The town of Boston is only a few hundred yards above Sutter's Embarcadero, on the north side of the American Fork, and in the immediate vicinity of the gold mines, and from its situation possesses superior advantages for business purposes. The land which forms the site of the town is twelve feet above the highest water mark, and the river is twenty-three feet in depth at the banks. It is believed that no place offers greater inducements for investments than this town, as in addition to the above mentioned advantages it has a fine climate, good soil, with an abundance of excellent water, and is free from inundation at all seasons. The town has been surveyed by Mr. J. Halls, and laid out in a convenient manner, and a plan of it can be seen, and any other information relating to it obtained on application to
